What can we expect to pay, and get paid, for service contracts?

Which contract prices change before they close? by how much?

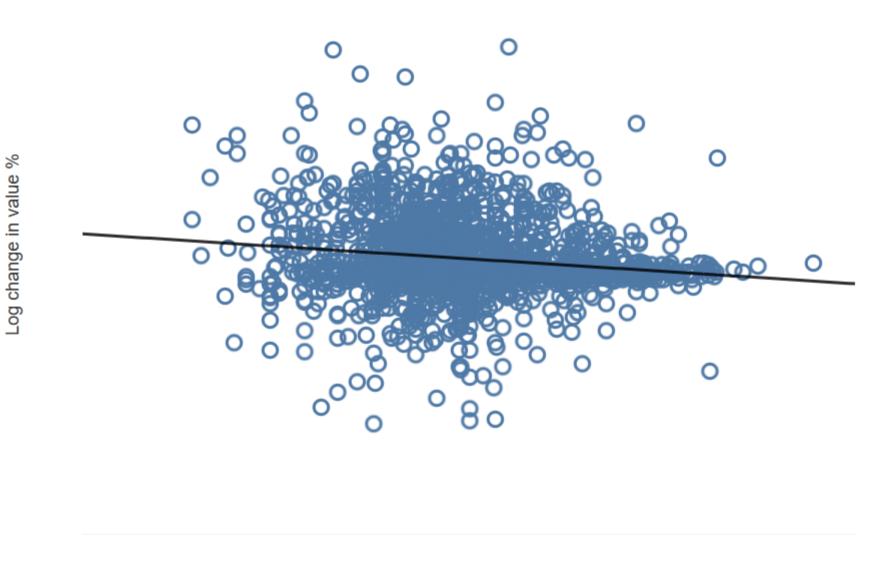

When is value deducted before close?

The data consists of publicprivate contracts from the Asheville NC city government database

General service contracts tend to increase in price, while construction contracts typically decrease before closing

Contracts with low original price increase on average, while initially higher priced contracts increase less or decrease on average

Log Original Amount

Changes to contracts caused the most total change in value in June

June declines primarily caused by cuts to large construction contracts

Higher portions of construction contracts are cut in June
